Problem Solving

Jitendra Saini

Frontend Developer(React)

PROFESSIONAL SUMMARY

Dynamic Frontend Developer with expertise in React.js, HTML, and CSS, showcasing adeptness in crafting user-friendly, responsive interfaces. Proficient in utilizing Generative AI and quickly mastering new technologies. Committed to enhancing development workflows for outstanding user experiences and seamless project execution.

PROJECTS

1. CalorieScan | |

JavaScript | React | HTML5 | CSS3 |

Responsive Web Design

- Developed a responsive web application using React.js and related technologies, focusing on user-friendly design.
- Implemented QR code scanning functionality to fetch dish details and nutrition information.
- Enabled users to select dishes, customize serving sizes, and view detailed calorie information.
- Ensured cross-browser compatibility and optimized the application for various devices.
- Conducted thorough testing and debugging to improve reliability and performance.

2. OwnField | |

JavaScript | React | CSS3 | HTML5 |

Responsive Web Design

- Built a platform connecting farmers and consumers using React.js, prioritizing responsive design.
- Created Farmer and Client Dashboards for listing crops, browsing, and placing orders.
- Implemented real-time search and chat system to enhance user experience.
- Integrated secure transaction features for safe payments.
- Collaborated effectively to translate requirements into functional interfaces.
